

**WE AT KHIZER
STEEL SPECIALISE
IN FERROUS AND
NON FERROUS
SCRAP
MANAGEMENT,
TRADING AS WELL
AS IMPORTS.**

Our primary goal is to provide eco sustainability by dismantling and segregating various scraps and supplying them to concerned manufacturers where it is melted and re used.

We trade in ferrous as well as non ferrous materials , mainly iron , aluminium , copper , steel and other alloys.

KHIZER STEEL

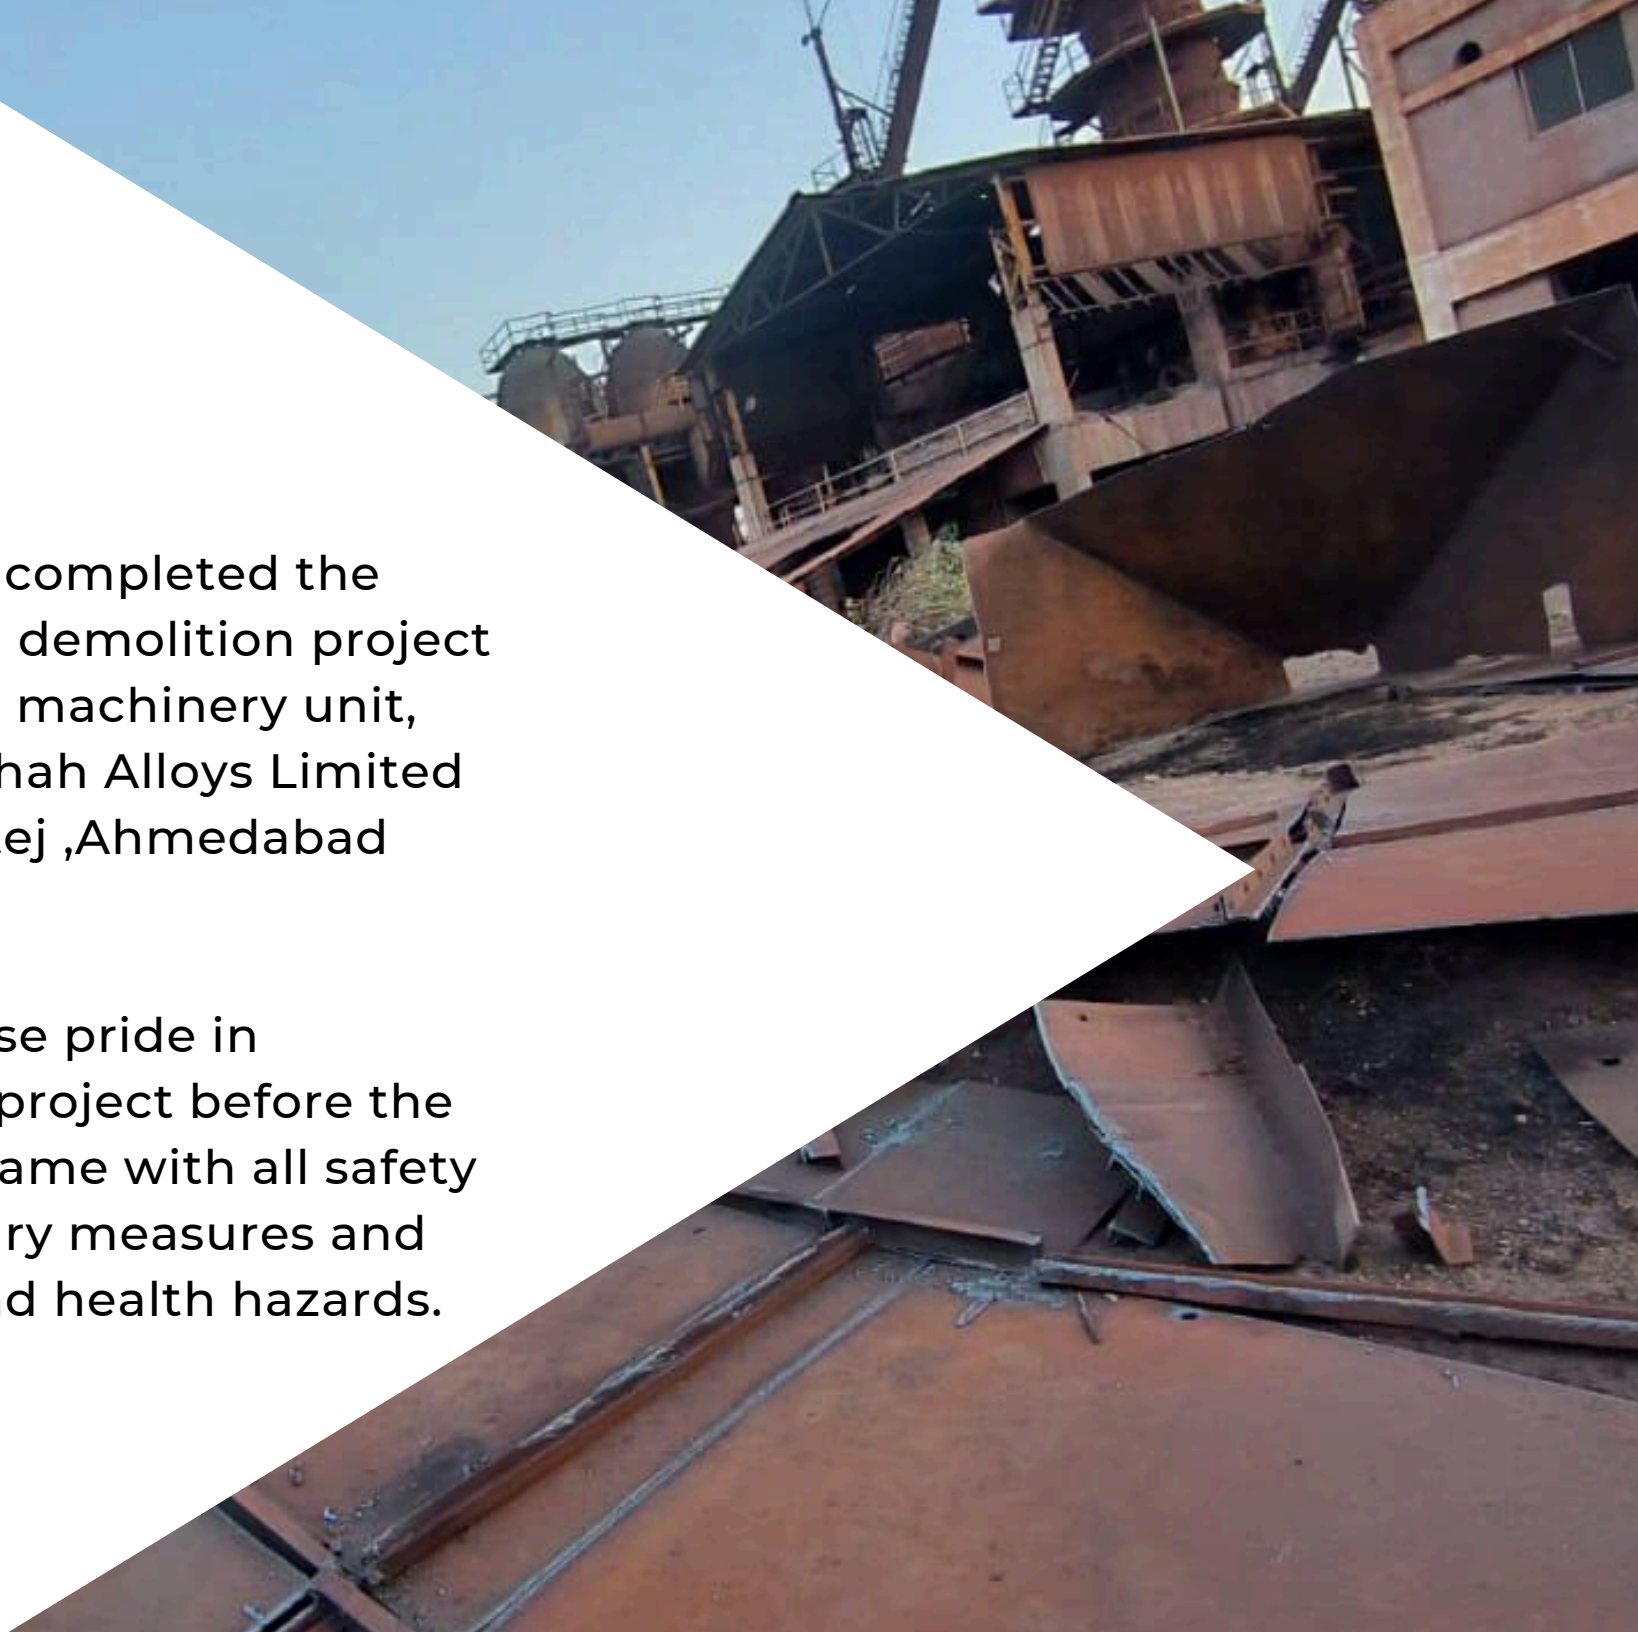

Sustainable Recycling

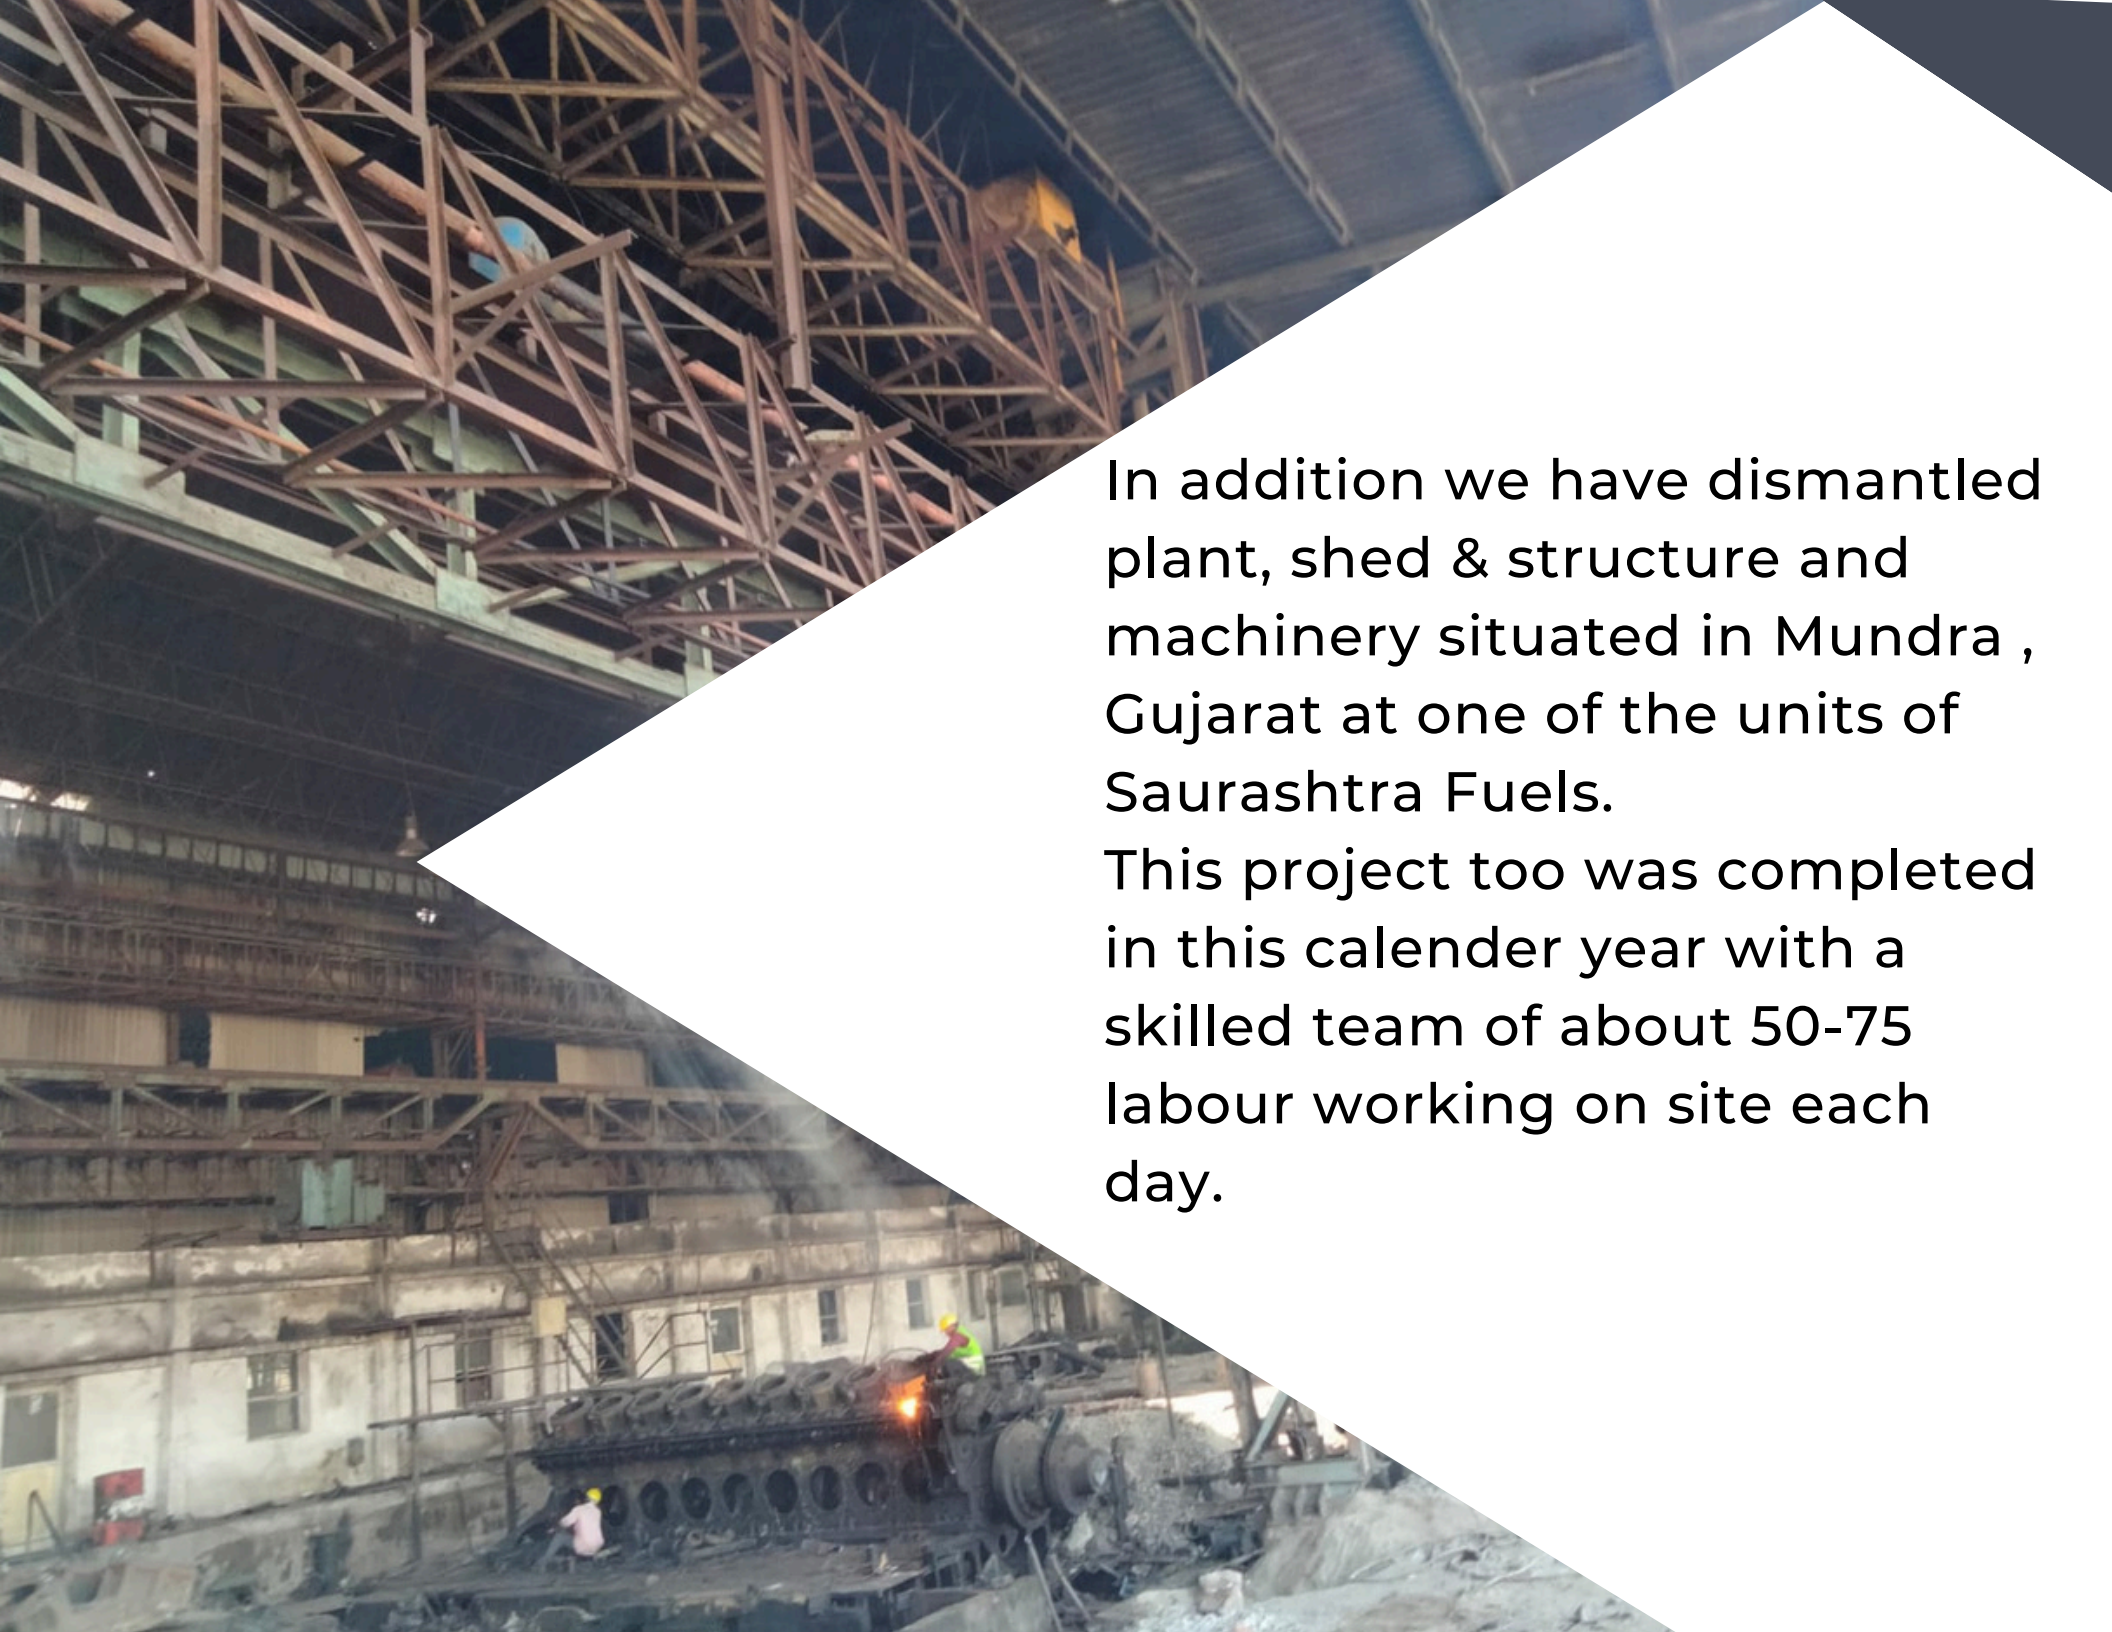

OUR PROJECTS

We successfully completed the dismantling and demolition project of an old plant & machinery unit, acquired from Shah Alloys Limited situated at Santej ,Ahmedabad ,Gujarat.

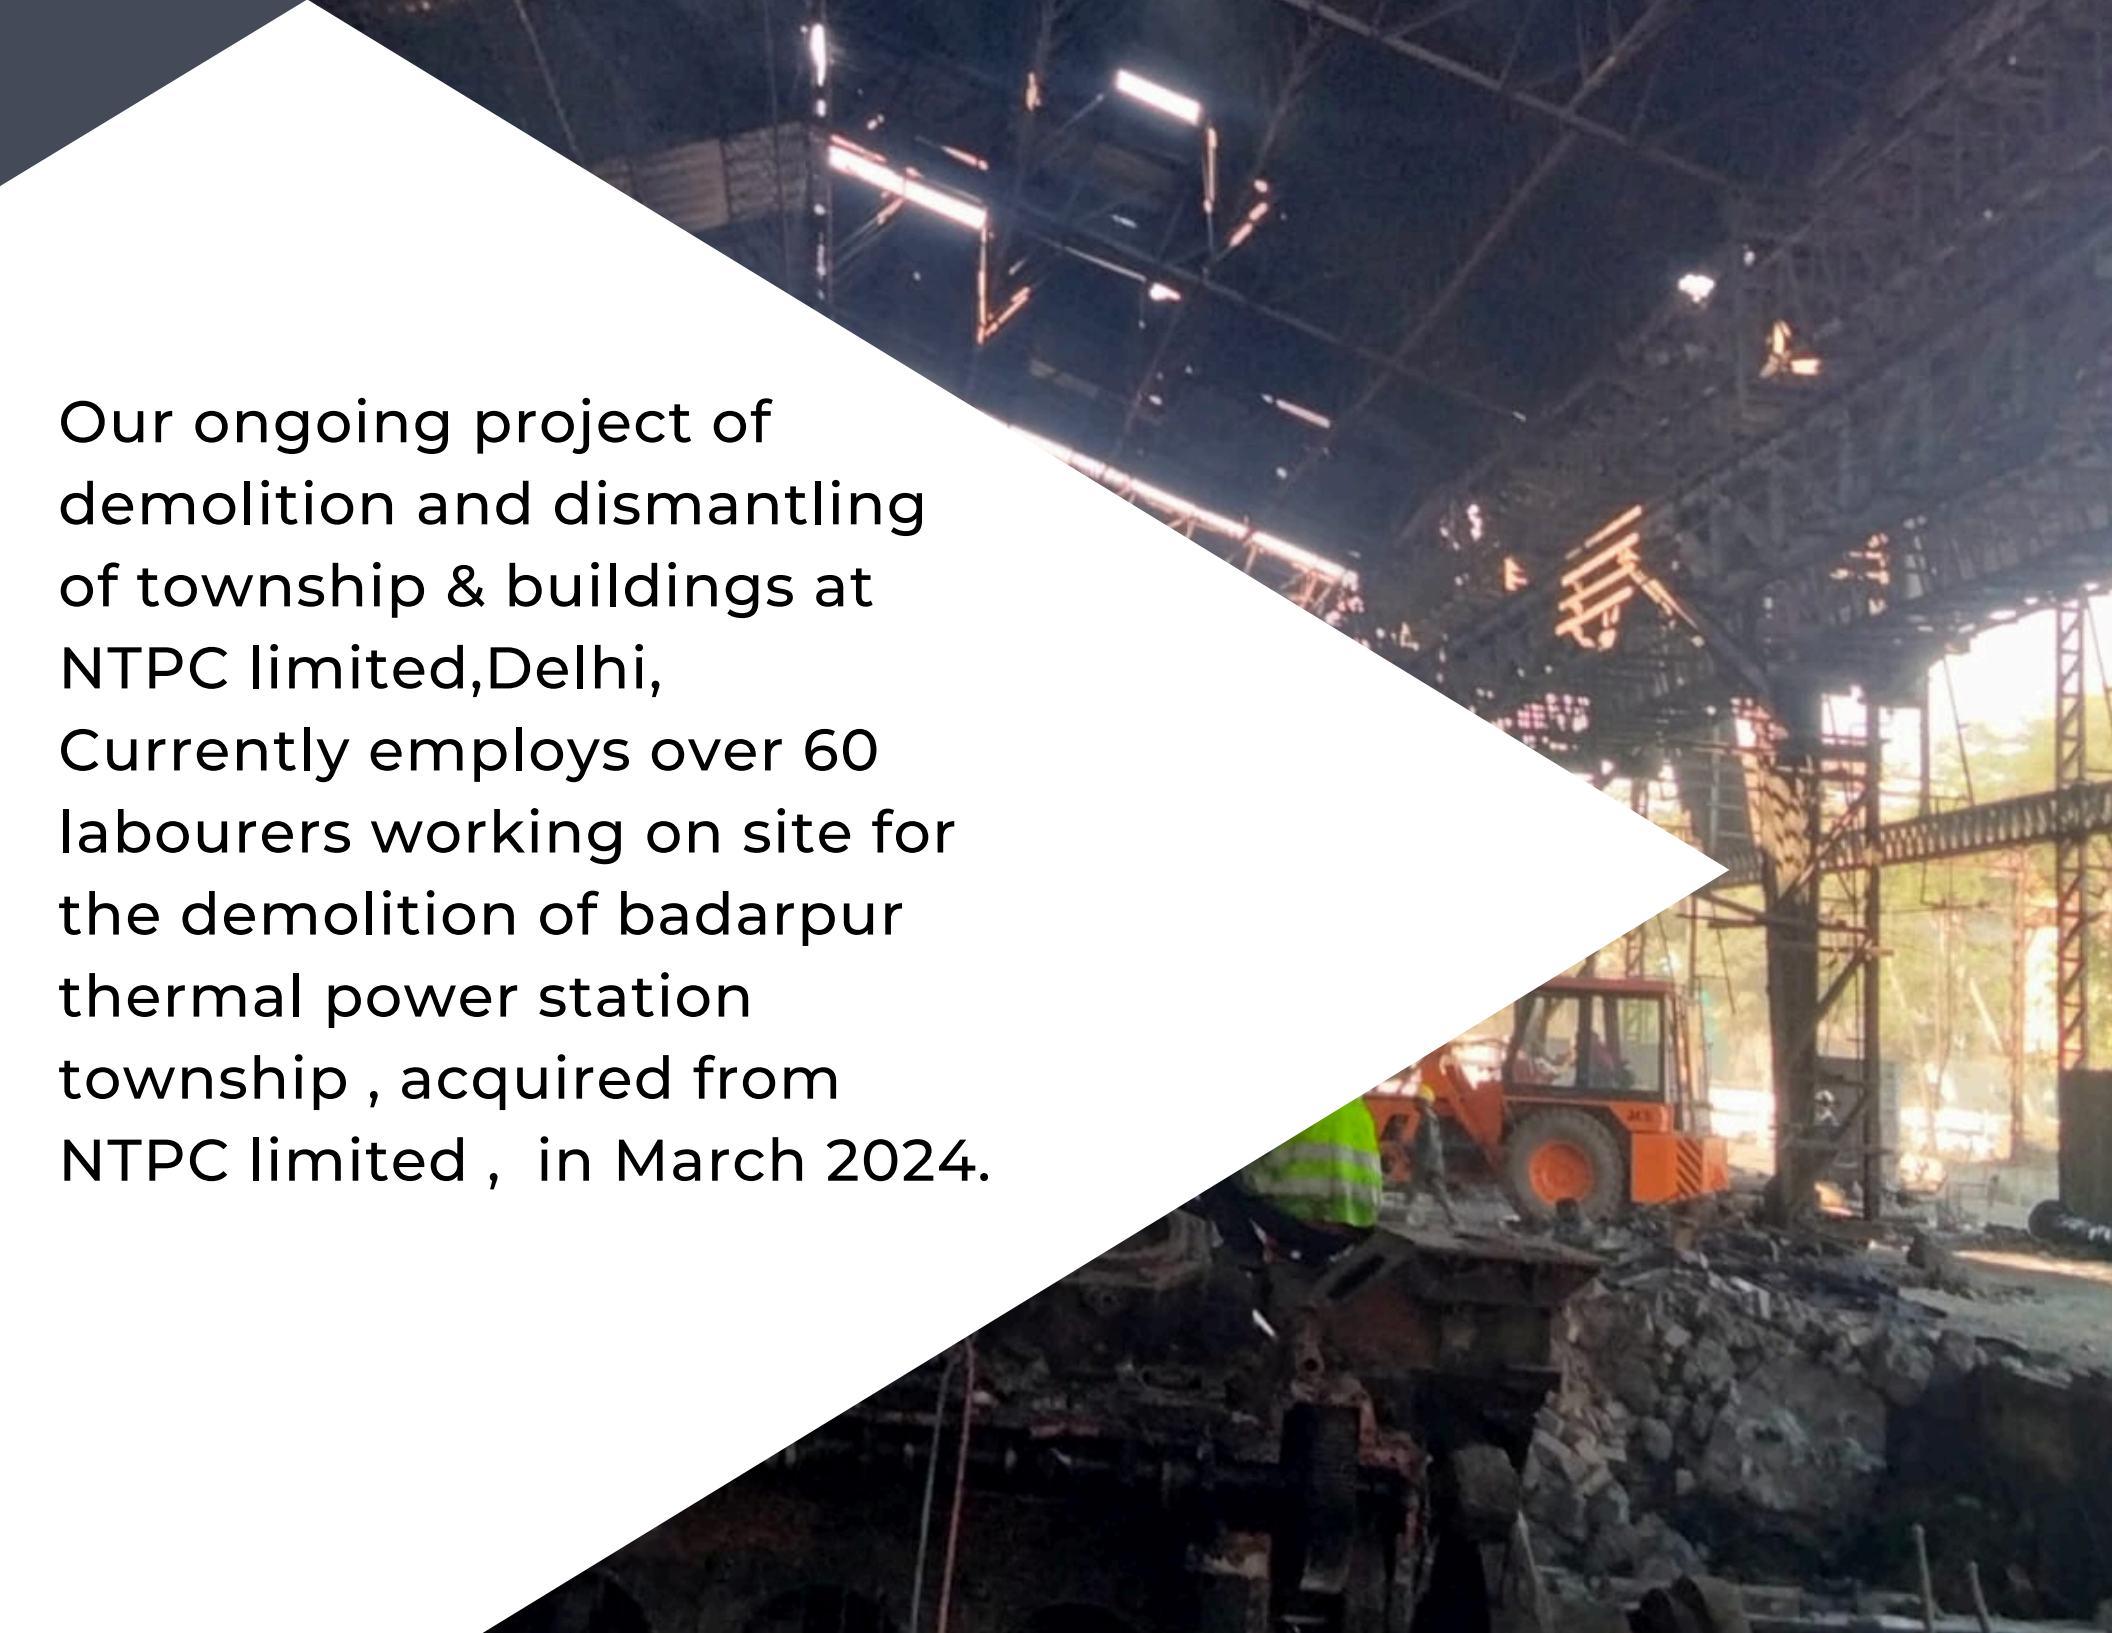

We take immense pride in completing the project before the provided time frame with all safety and precautionary measures and zero fatalities and health hazards.

In addition we have dismantled plant, shed & structure and machinery situated in Mundra , Gujarat at one of the units of Saurashtra Fuels.

This project too was completed in this calender year with a skilled team of about 50-75 labour working on site each day.

Our ongoing project of demolition and dismantling of township & buildings at NTPC limited, Delhi, Currently employs over 60 labourers working on site for the demolition of badarpur thermal power station township , acquired from NTPC limited , in March 2024.

OUR DIRECTORS PRESENCE AT ALANG

Mr Afzal Dhorajiwala , the director of Khizer Steel , Gujarat is also associated with ship recycling at Alang , which is Asias largest ship recycling yard,

Having their own ship recycling facility at plot no. 76 & plot no. 75 registered as Ship Trade Corporation & Greentech ship recyclers respectively.

Our presence at Alang enables us to access huge quantities of ferrous and non ferrous recyclable materials.

WHY CHOOSE KHIZER STEEL

Our company offers transparency and regular conversations with fellow traders and suppliers whenever necessary, along with Sound market presence , competitive rates as well as work completion within given time frame .
